Year 10 Certificate

GPA Calculation

Calculate the cumulative high school GPA by converting line-by-line all grades listed on the official Year 12 Certificate to US equivalents, then convert to quality points. All courses are weighted based on weight given on the certificate. "Major" courses are given 1 credit and courses labeled "Minor" are given .5 credits.

Grading Scale (May not be all inclusive):

Letter Grade	Translation	Numeric Grade	US Grade	Quality Points	
A	Very High Standard of Achievement	5	A	4	
B	High Standard of Achievement	4	B	3	
C	Sound Standard of Achievement	3	C	2	
D	Limited Standard of Achievement	2	D	1	lowest passing grade
E	Very Limited Standard of Achievement	1/0	F	0	
S	Status (transferred course)	-	-	-	

Class Ranking

Class rank is evaluated based on a letter written and submitted by the headmaster or principal of the institution from which the student graduated. The letter must confirm both the student's final position in the student's secondary school class and the total number of students in the graduating class (e.g. the student is 41st in a total graduating class of 112 students). Tertiary Entrance Statement or University Admission Index cannot be used to fulfill the class rank requirement.

Post-Secondary Education

Students will be charged terms of attendance and considered transfer students if they have enrolled as a regular student and attended one or more courses at any of the types of institutions listed below (may not be all inclusive) or any other institution that requires proof of high school graduation as a pre-requisite for admission (subject to review on a case-by-case basis).
