GPA Calculation

Calculate the cumulative high school GPA using all exam grades earned on official certificates listed in "Group A" above. Convert all grades listed on the certificate line-by-line to US equivalents and then to quality points. If a crediting system is used, weight the grades for each subject according to the credits assigned for that subject on the official document. If no crediting system is assigned on the official document, weight all courses equally.

Grading Scale (May not be all inclusive):

Grade	Description	Percentage Grade	US Grade	Quality Points
10	Excellent	95-100	A+	4
9	Very Good	85-94	A	4
8	Good	75-84	B	3
7	Almost Good	65-74	C+	2
6	Satisfactory	55-64	C	2
5	Almost Satisfactory	45-54	D	1
0-4	Fail	0-44	F	0

Class Ranking

Class rank is evaluated based on a letter written and submitted by the headmaster or principal of the institution from which the student graduated. The letter must confirm both the student's final position in his/her secondary school class and the total number of students in the graduating class (e.g. the student is 41st in a total graduating class of 112 students). However, students completing tracked or separate degree programs (e.g. *Teudat Gemer Maslul Miktzoi Tichon MASMAT*) must be ranked against all other students in a given class who completed the same degree program.

Post-Secondary Education

Students will be charged terms of attendance and considered transfer students if they have enrolled as a regular student and attended one or more post-secondary courses at any of the types of institutions listed below (may not be all inclusive) or any other institution that requires proof of high school graduation as a pre-requisite for admission (subject to review on a case-by-case basis).
